

ANNOUNCING ERSA 2012!

Engineering Reconfigurable Systems and Algorithms

July 16-19, 2012

Monte Carlo Resort, Las Vegas, Nevada, USA

Premier International Gathering for

Commercial and Academic

Reconfigurable Computing Application Developers

- **In 2012, ERSA brings a new emphasis to the commercial and industrial challenges in preparing commercial applications for systems using reconfigurable technology**
- **Commercial submissions for presentations and papers may include discussions on challenges, tools, development strategies, solutions, methodologies, and product demonstrations.**
- **We strongly encourage employers, developers, students and researchers to attend.**

For more information visit <http://ersaconf.org>

ERSA is a part of the International WorldComp Conference

- Over twenty disciplines in one conference setting
- Tremendous international participation
- Several thousand global thought leaders attending

Visit <http://www.world-academy-of-science.org> for more information

Sponsor ERSA and raise your visibility and show your support for advancing reconfigurable systems algorithms and systems in both academic and commercial applications!
